Hinckley, UT 84635

Dear Mr. Finlinson:

Your notice to conduct mining related operations in T. 16 S., R. 10 W., Sec. 1, was received on September 20, 1991, and has been accepted by this office. Your notice has been assigned case file number UT-054-91-26N. Please use this number in any future correspondence concerning this notice.

As was discussed by Rody Cox and yourself on September 20th, this notice supersedes your Plan of Operations previously submitted to this office. Upon initial screening, your plan was found to be incomplete as per 43 CFR 3809.1-5. As your project progresses, it may become appropriate for you to resubmit a plan of operations. This will be required if the surface disturbance associated with your project approaches five (5) acres. We will be happy to assist you in developing an acceptable plan of operations if you so desire.

If you change your operation from what is described in your notice, please contact this office prior to the change. If your operations extend for more than one year under a notice, please advise this office of the status of your mining related activity on the anniversary date of your notice.

Enclosed is a copy of the Standard Operating Procedures required by the Richfield District, House Range Resource Area. Please follow these guidelines as they pertain to your operations.

A copy of your notice has been sent to the Utah Division of Oil, Gas and Mining (DOGM); therefore, you will not have to file this notice with DOGM. However, reclamation under this notice is required to conform to the standards of the Utah Mined Land Reclamation Act. Also, all mining claimants and operators that plan to use, store, or divert water are required by Utah statute to notify the Utah Department of Water Resources at:

1636 West North Temple
Salt Lake City, Utah 84108

As required by 43 CFR 3809, Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands during your operations. Please notify this office upon completion of operations and reclamation, so an inspection may be conducted on the site.

Acceptance of your notice will not now, nor in the future, serve as a determination of the validity nor ownership of any mining claim you may include under your notice. If you do stake new claims in this area, please provide this office with the names and corresponding UMC numbers.

Thank you for submitting your notice. If you have any questions regarding this letter, please feel free to contact Rody Cox at (801) 743-6811.

Sincerely,

SIGNED

Rex Rowley
Area Manager
